

A GUIDE TO AIRLOCKER SMART LOCKER SYSTEMS

Secure solutions for all your asset
management and delivery needs

AIRLOCKER TECHNOLOGY

AT WORK FOR YOU ■

AirLocker has been delivering smart locker solutions to clients such as Disneyland, Cisco, FedEx, and Comcast for more than a decade. We define what you need most in a smart locker system: Agility.

Our solutions install quickly; they can be easily scaled up or down to meet your business needs; they support rapid reconfiguration and can be managed locally or from the cloud. We deliver the industry's most robust API to integrate with your back-end IT platforms and customer-facing applications. All this adds up to a powerful solution that secures and protects your packages, people, and equipment.

Whether you need to reduce your package delivery load, streamline in-store pickup, improve the logistics of critical assets, or provide staff with workplace lockers for daily use, look to AirLocker for the most agile solution.

WE THINK AHEAD

Future-proofed solutions
for enterprise needs

MAKING YOU

STAND OUT

WHY DO YOU NEED SMART LOCKERS?

Smart lockers are emerging as a new capability that supports many different aspects of your organization. AirLocker provides you with solutions to meet the needs of your employees, customers, and partners.

EQUIPMENT UTILIZATION

AirLocker can improve your enterprise efficiency by helping you manage assets, improve workflow, and decrease downtime. Our agile API enables quick integration with enterprise-class IT systems and real-time field service systems, deploying when and where you need it.

WORKPLACE LOCKERS

Moving to a more connected, collaborative workplace environment? Many companies need an open office where employees can choose where to work and meet throughout the day. AirLocker lets you store personal items and gear where it will be easy to access.

RAPID DELIVERY

In “brick and click” retail environments, 50% of E-commerce customers prefer collecting their online purchases in-store. Our smart lockers offer a cost-effective solution. Just load your lockers and send the customer a unique security code to collect their purchase. Airlocker helps retailers keep up with the competition while providing excellent customer service.

SECURE STORAGE

Some projects need to be kept secure even within company walls. AirLocker protects and secures your most confidential projects with sturdy construction, secure authentication, and enterprise-class IT security – and you can move them for each new critical project.

BUILT FOR STRENGTH AND SECURITY

A SMARTER WORKPLACE FLOW

DAY USE LOCKERS

Employees can reserve a locker in advance from their mobile device or on-demand at the kiosk.

The locker is theirs for secure storage of business and personal gear.

An email reminds them to pick up their gear at the end of the day.

MANAGING ESSENTIAL EQUIPMENT

Employees can access equipment when they need it using their smart phone or Company ID.

Use the Smart Logistics software to track usage and shortages.

Equipment can be returned for use the next day or for shipment to a repair center.

SMOOTH YOUR PACKAGE DELIVERY

Automate that messy package room.

Notify employees by email or text they have a package waiting.

Employees can pick up packages simply by scanning their smart phone.

A SMARTER WORKPLACE FLOW

ASSET DISTRIBUTION

Move critical equipment from the distribution center closer to your service team and the customer.

Securely store items where you and your customers need them.

Remotely monitor stock levels, specify who gets access, and distribute items as needed.

Your customer is back on-line in hours, not days.

When the service team needs it, they can pick it up with just a smart phone scan.

ABOUT

AIRLOCKER

AirLocker is the solution of choice for retailers, enterprises, and partners who daily experience the challenges of operating a smart locker deployment. AirLocker installs with relative ease; it can be operated locally or from the cloud, and is backed by a suite of software applications including last mile delivery, pick-up-in-store, and enterprise-class storage. From Disneyland to Tokyo, and Munich to Toronto; from private companies to the U.S. federal government, we provide a secure locker solution for you and your customers.

CUSTOMIZE FOR YOUR NEEDS

Physically designed to meet a variety of functions and sizes, to support your changing needs.

FOCUS ON WHAT'S IMPORTANT

We secure your equipment, gear, and packages – you focus on your core business.

CHOOSE INTELLIGENT

Driven by world-class, cloud-based software designed to help you effectively manage lockers and their contents.
